## NO QUARTER FOR THE GIANTS

THIS TIME DETROIT BEATS THEM.

THE SCORE WAS S TO 6-ATTENDANCE AT THE POLO GROUNDS STEADILY DWINDLING.

Governor Hill was one of the 3,252 people who went to the Polo Grounds yesterday to see the New-York and Detroit clubs play baseball. Two amateur nines might have played a considerably more scientific game. The Detroit nine won because their local opponents played like a lot of schoolboys during the first half of the game. The local players rallied and played like real giants in the last two innings, but the rally came too late. Richardson, Titcomb, Harfield and Connor distinguished themselves in anything but a litable manner. They made the onlookers weary and many left the grounds before the game was half over. Gore d'd nothing, of course.

People who go to the Polo Grounds now think that is a lot of useless material on the salary list of the New-York club. Of the eighteen players under Manager Mutrie, seven or eight are probably men, the rest are useless. It might be a good ideato put up the useless timber at auction and with the proceeds purchase the release of two or three firstclass baseball players. A Denny and one good out-delder would be worth all the Gores, Posters, Georges, Weldmans, Browns and Cranes in the country.

The New-Yorks were first at the bat but the Detroits were the first to score. In the first inning Titcomb sent H. Richardson to first on called balls. He went to second on Thompson's out at first, to third on an error by Hatfield and scored on a hit to centre field White. In the second inning the visiting players scored two more runs and increased their lead. After Hanlon and Ganzell had struck out, Conway made a safe hit to left field. He scored on a three-base hit to the centre field flagpole by Sutcliffe. A passed ball Murphy allowed Sutcliffe to score. players got one run in the third inning on a wild throw White. Richardson sent an easy grounder to White, but that player threw it over under the free scats instead of at first base and Richardson made the

The Detroit players also scored a run in their part of the third inning. White made a hit but was forced out by Twitehell. Then errors by Connor and O'Rourke allowed Twitehell to score. The fourth inning was a dismal one to the followers of the home club. The White made a hit but was forced Detroit men scored four more runs, not one of them being carned. Richardson made a hit, while both Rowe and White were struck by pitched balls, and the bases were full. Twitchell sent an easy bounder to second, but "Danny" Richardson made a wild throw to the home plate and both H. Richardson and Rowe scored on the error. Hanlon made a scratch and "Deacon" White scored. Twitchell scored on another bungling error by D. Richardson.

The local players got another single run in the eighth inning, more through good luck than good playing. O Rourke made a hit along the left field foul line and went to second on Hatfield's out at Murphy made a scratch hit which bounded over Rowe's head and O'Rourke scored amid shouts

The New-Yorkers railled in the last inning and scored four runs. Slattery made a hit and scored on three-bagger to centre field by Richardson. The latter was allowed to steal home. Connor made a hit and scored on a three-base hit to centre by O'Rourke. Gore's out to Hanlon allowed O'Rourke to score. The score was:

TO TUNNEL THE HARLEM RIVER.

THE PARK BOARD'S COMMISSION IN FAVOR OF RE PLACING THE M'COMR'S DAM BRIDGE.

A report was made to the Park Board yesterday by the commission appointed last fall to determine whether a bridge or tunnel should replace McComb's Dam Bridge over the Harlem River, from Seventh to Jerome aves. The members of the commission are Edgar B. Van Winkle, Thomas G. Clarke, George W. McNulty and General John Newton, Commissioner of the Department of Public Works. The commission was instructed to report whether a fixed bridge like that now building should be constructed, a draw-

bridge or a tunnel, and the cost of these several plans. The commissioners after examining the various proposed plans report in or of a tunnel and give the reasons for their decision at length. They object to a single span bridge on the ground that it would nnecessarily expensive, and as it would have to be built at a height of 100 feet the long approaches would block the avenues. The objections to a drawbridge are that it would delay and obstruct travel and that it will be expensive to build. The commission thinks that a tunnel can be built for about \$2,000,000. and recommends that it be built with sections for two driveways and a foot path.

President Robb and Commissioners Hutchins and Towle were in favor of the report. Mr. Borden said that he believed the tunnel to be the best method of transit at the Harlem River, but he thought that further consideration should be given to the subject before the recommendation of the commission was adopted. The report was then approved and will be acted

on at the next meeting of the Board. Director Conklin, of Central Park, gave notice that June 25 had been set for the annual sale of the South down sheep of the Park. The number to be disposed of is eighty-one ewes and lambs. Property-owners complained that the work on Morningside Park was ont properly supervised, that it took one man to turn over a stone and six to watch him. President Robb said that a new foreman had been appointed on the work and he hoped that the property-owners would report all complaints and act as a vigilance committee for the city in supervising the work.

SCOTT. THE TELLER, CROSSEXAMINED On the trial of John R. Dunn, the lawyer, for grane larceny in connection with the defalcation at the bank of the Manhattan Company, Richard S. Scott, the teller who absconded, was cross-examined yesterday a much length. He said that he entered the bank when he was nineteen years old as an assistant clerk at a salary of \$300 a year. Besides this he received a present at Christmas, making the total amount \$700 or \$800 a year. He was promoted from time to time until he became paying teller at \$4,000 a year. He went over the details of his stock speculations and his taking of various sums from the bank to make up his losses. The witness repeated the story of the how he had informed Fanny Roberts that he was short in his accounts and had left \$10,000 with her, telling he that he might need it to pay for his defence if he should be captured. The witness said he had known Dunn for nineteen years. He had returned to New-York not knowing that he was jointly indicted with Dunn

Assistant District-Attorney Parker said that immunity had been promised to the counsel of the wit-ness for the latter prior to his return. The case will go on to-day.

TROUBLE OVER ELECTRIC LIGHT RIDS. . The Mayor, Controller Myers and General Newton Commissioner of Public Works, composing the Gas Commission, were yesterday served with a process issued by Judge Van Hoesen requiring them to cause within twenty days why an injunction should not issue restraining them from making contracts with any of the electric light companies whose bids for lighting the streets have been accepted, including the Brush, the United States, the East River, the Mount Morris, the North New-York, the Harlem and the Ball companies. The plaintiff is the New-York Electric Construction Company, represented by Andrew J. Kimball. This company put in bids for supplying 876 lights at from 23 to 20 cents per night, to be placed between the Battery and Fifty-ninth-st. and taking in Broadway and contiguous streets. The bids were lower than those of the companies to which the contracts were awarded, the average of the latter being about 35 cents a light each night, but the plaintiff's bids were withdrawn before they had been read by the clerk on the day of opening them and the che deposit was taken up. An affidavit by John H. Hap-good, vice-president of the New-York Electric Con-Company, accompanies the complaint of Mr. Kimball and sets forth that the withdrawal of the company's bid was unauthorized and procured b representations made by the competing companies.

Controller Myers said that the New York Electric
Construction Company was not in possession of the
necessary facilities for carrying out the contract if
it had been awarded to them.

At the meeting of the Board of Fire Commissioners esterday it was decided to inform the are electric light companies to take down their wires, as they were a constant menace to life and a nulsance to the Fire Department. The charges against Inspector D'Oench brought by Allen & Co., fire-escape manufacturers, was dismissed, D'Oench's decision condemning the fire-es-cape being sustained by the Board. Allen & Co. were refused the privilege of submitting further evidence. In the reply submitted to the answer of Inspector Oench, Allen & Co. state that there were twenty-one fire-escapes erected, seventeen of which were approved before D'Oench's appointment, and after personally four, stating in the presence of several witnesses, named in the reply, that the fire escape was perfect and telling the company to go ahead and put them up. Allen & Co. will bring the case before Mayor Hewitt at an early date.

WESTERN UNION OFFICERS HAPPY.

Beyond the declaration of the usual dividend of 1 1-4 per cent, the directors of the Western Union Telegraph Company did nothing at their quarterly meeting yesterday. In the official statement it was said that the expenses in the March quarter were largely increased and the revenues dimin'shed by the destructive blizzard in March. The gross earnings for the present quarter, which will end with this month, will exceed \$5,000,000 and be the largest in the history of the company although usually the two following quarters have been the best in the year. The earnings reported by the test offices for the week ended June 9 were in the same direction. They were \$226,947 against \$180,744 in the corresponding week fast year. The week was the banner one in the company's history and onicers of the company were confident that the business would steadily improve throughout the year.

THE DRESSES ALL FITTED HER PERFECTLY. Collector Magone had a visit yesterday from Miss Bessle Montour, who gave him an explanation of her connection with the smuggled silk dresses brought here last October by Mrs. Rose Ludvigh and herself. She informed him that she came here to obtain a position in an opera company and Mrs. Ludvigh travelled with her rope for over three months as her maid. She gave a list of all the articles contained in the trunks and claimed that the dresses were her genuine wardrobe. During the search of her trunks at the Hotel Dam on -Indianapolis, 9; Philadelphia, 5. > TOO ANXIOUS TO GET PRAISE FOR BRAY ERY. President French, of the Police Board, sat in the trial room at Headquarters yesterday, and heard the evidence against policemen who were called up on charges. Inspector Williams was present to press a complaint against Sergeant O'Brien, of the Seventh Precinct. Mrs. Doolin testified that she was in no danger at all, but was in her rooms, where there was no fire, when Sergean O'Brien and his helpers selzed her and forcibly carried her out the wrong way, despite her protests. O'Brien tried to show that he thought Mrs. Doolin was in danger. He denied that the slight burn on his hand had been received by putting out a lamp on the night before the fire.

JAEHNE MUST STAY IN PRISON.

Judge Benedict, in the United States Circuit Court vesterday, denied the motion made by Roger Sherman for a writ of habeas corpus in the case of ex-Alderman Henry W. Jachne, who is serving a term of imprison ment in Sing Sing for bribery. Justice Barrett sentenced Jachne to imprisonment for nine years and ten months under the provisions of Section 72 of the Penal Code. Mr. Sherman argued that that section with the force and effect given to it by Section 2,143 of the Consolidation Act is an ex-post facto law. Judge Benedict says that the question presented to the court relates only to Section 72 of the Penal "In determining the validity of that section," Code. he continues, "any construction given to it by the Court of Appeals is controlling, and the decision of the Court of Appeals in O'Nell's case where the in dictment was under the same statute must be observed. MOONEY, THE DYNAMITER, SAYS HE IS SANE. Thomas I. Mooney, who was arrested and tried on a charge of having thrown a bomb aboard the steamship Queen, which was lying at her pier in the North River, iast summer, and is now an inmate of the State Insane Asylum at Utica, has written a long letter to The Tribune, in which he says that all his Irish friends in this city have abandoned him, and have either refused or neglected to aid him in obtaining his liberty. "I am simply," he says, " held as a political prisoner under false pretences, and chiefly on account of the false assertion of Dr. Hamilton that I am insane. As I have no longer any money," he continues, "I appeal to the sense of honor and fair play of the politic press that its powerful influ-ence may be brought to bear on the District-Attorney to compel him to apply for a writ of habeas corpus, so that I may have a fair trial as to my insanity before an impartial judge and an honest, intelligent jury." Then he quotes Drs. Cleveland and Langdon, of the State Asylum at Poughkeepsie, to show that he is not out of his mind. Mooney closes with some uncompilmentary references to the Pope and an indorsement of Dr. McGlynn's views on

A MYSTERY AT ROCKAWAY BEACH.

suicide. SPIRITUALISM AND INSANITY. The Medico-Legal Society held its regular monthly neeting last evening at the Hotel Buckingham. An inresting paper was read by Dr. Matthew D. Field on the subject, "Is Belief in Spiritualism ever Evidence of In-sanity," per se?" He divided Spiritualists into three classes, those who make it a business to delude and mystify; those who altend seances and are mystified, and are so astonished as to believe that the things they see must be the results of supernatural agencies, and those who converse with them, without the aid of mediums. The first two classes, in his opinion, could not be considered insane, but the beliefs of the third class would, he considered, be evidence of insunity per se. Papers were also read by William W. Carr. of Philadelphia, on "The Webber Murder Case in Philadelphia," and by Clark Bell on "The Case of Daly at Washington, and the cial Departure in Insanity Cases,"
